IT Support Technician · Microsoft 365 Global Admin · Endpoint & Security

PROFESSIONAL SUMMARY

IT support professional with 6+ years of hands-on experience delivering end-user support, endpoint management and IT infrastructure services in fast-paced environments. Currently the sole IT contact for 500+ users across a global organisation, holding Global Administrator responsibility for Microsoft 365, Intune and Mimecast. Strong across Windows 10/11, macOS/iOS, Azure AD and Microsoft Defender, with a track record of 95% CSAT, Cyber Essentials Plus certification and infrastructure projects delivered independently on time and within budget. Comfortable supporting users at every level, face-to-face and remotely, and currently studying for ITIL Foundation and ServiceNow.

TECHNICAL SKILLS

Networking & remote	TCP/IP, DNS, DHCP, VPN, Citrix, TeamViewer
Hardware	Windows PCs, MacBooks, iPhones, printers, peripherals, AV equipment, CCTV (NVR), UniFi door access

PROFESSIONAL EXPERIENCE

IT User Support Technician (Global Admin)

March 2023 – Present

Boston Limited

Sole IT support contact for 500+ users across a global organisation, owning the full support lifecycle from triage to resolution and reporting directly to senior leadership.

- Resolve 200+ incidents and service requests a month while maintaining a 95% CSAT score, consistently meeting SLAs and keeping users informed throughout.
- Reduced security breaches by 25% and improved network uptime by 15% by tightening endpoint protection through Microsoft Defender and Mimecast, including URL/attachment filtering, threat remediation workflows and compliance reporting.
- Achieved Cyber Essentials Plus certification for two consecutive years, a first for the organisation, by auditing and remediating gaps across endpoint, network and access control policies.
- Led the migration from on-premises Active Directory to Azure AD and took on Global Administrator responsibility for Microsoft 365, Intune, TeamViewer, Sophos and Mimecast, cutting provisioning time by an estimated 30%.
- Deployed and configured 100+ Windows laptops and desktops for new starters and office relocations using Intune Autopilot, standardising builds and reducing setup time per device.
- Built Jira workflows for incident, change and request tracking, with shared queues, priority rules and SLA alert automations that improved response-time visibility across the department.
- Coordinated 12 software update rollouts with the development team in 2023 with zero unplanned downtime.
- Delivered CCTV (UDM and NVR) and door access upgrade projects end-to-end, on time and within budget.
- Ran phishing simulation campaigns and KnowBe4 training for 500+ users, building measurable security awareness across the business.
- Created hardware, software and configuration documentation and a knowledge base that reduced repeat tickets and sped up resolution for new team members.
- Earned three Microsoft certifications (Azure AI, Security, Power Platform) within six months of joining, in line with the organisation's cloud-first strategy.

Administrator Officer (Part-Time) March 2020 – May 2024

NHS – Central London Community Healthcare

- Processed 100% of new patient referrals in line with NHS Standard Operating Procedures, with zero procedural breaches in a regulated healthcare environment.
- Awarded the NHS Badge of Honour for exceptional community support during the COVID-19 pandemic.
- Maintained accurate records and communications between district nurses and therapists, upholding data integrity and confidentiality.

Test Engineer February 2020 – July 2020

Marquis Technology

- Delivered pre-launch device testing for OnePlus and Realme handsets for major UK mobile networks, covering firmware flashing, functional testing and defect reporting, with all projects completed on schedule.

IT Technician October 2018 – July 2019

Polani Travels Ltd

- Managed OS and software deployments, peripheral troubleshooting and network performance optimisation.
- Trained junior staff on common issues, measurably reducing repeat support requests.

CERTIFICATIONS

- Microsoft Azure AI Fundamentals · Microsoft Security Fundamentals · Microsoft Power Platform Fundamentals
- Microsoft Intune & Security Fundamentals
- Cisco Networking Essentials · Cisco Cybersecurity Essentials
- ITIL 4 Foundation (in progress) · ServiceNow Fundamentals & ITSM (self-paced, in progress)
